Cal EOC Incident – 2014 Drought

SOC / Inland REOC remains activated in support of 2014 Drought.

A Drought Proclamation Termination Resolution was received from Sonoma County terminating their local emergency due to drought conditions.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

The next round in a series of very wet and windy systems is making its way to the coast this morning. Models continue to show very windy conditions over much the region with this front.

Eureka Weather:

A potent cold front will develop today and produce heavy rain and strong winds. Cold and unstable air behind the front will result in periods of rain and high elevation snow showers on Sunday.

Reno Weather:

Multiple storm systems pushing into the West Coast will bring rounds of winds, rain and snow through Monday. Significant travel impacts are likely for the Sierra starting tonight and into Monday. The Monday morning commute may also be impacted by snow covered roads, even in the lower Nevada valleys.

San Francisco Weather:

Periods of rain mainly light this morning. Rain will then increase and become moderate to heavy after 2 pm as a strong cold front approaches the bay area. Periods of heavy rain this evening with gusty Southerly winds. Wind and rain will rapidly wind down before midnight. Showers and isolated thunderstorms Sunday in post frontal environment. Next front arrives Sunday night with another round of moderate rains. Showers linger Monday then dry through midweek. Chance of North Bay rain by Wednesday then all of the Bay Area and Central Coast by Thursday and Friday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

A strong storm system will move through the area today with heavy rain and snow, strong winds, and localized flooding. Additional rain and snow are possible Sunday, Monday, and late next week.

Hanford Weather:

A series of storm systems will bring wet weather to Central California today through early next week. These storm systems will bring substantial valley and foothill rain, mountain snow, breezy winds, and thunderstorms.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Moist West flow will likely bring showers to Northern areas today with a chance of showers elsewhere. A couple of frontal systems will then bring rain possibly heavy at times to the region. The first will affect the area tonight and early Sunday and the second late Sunday night into Monday. Thunderstorms are possible Monday. High snow levels will lower through Monday. Dry and warmer weather is expected Tuesday through most of Thursday. Another front may bring rain to the region late Thursday through Friday.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

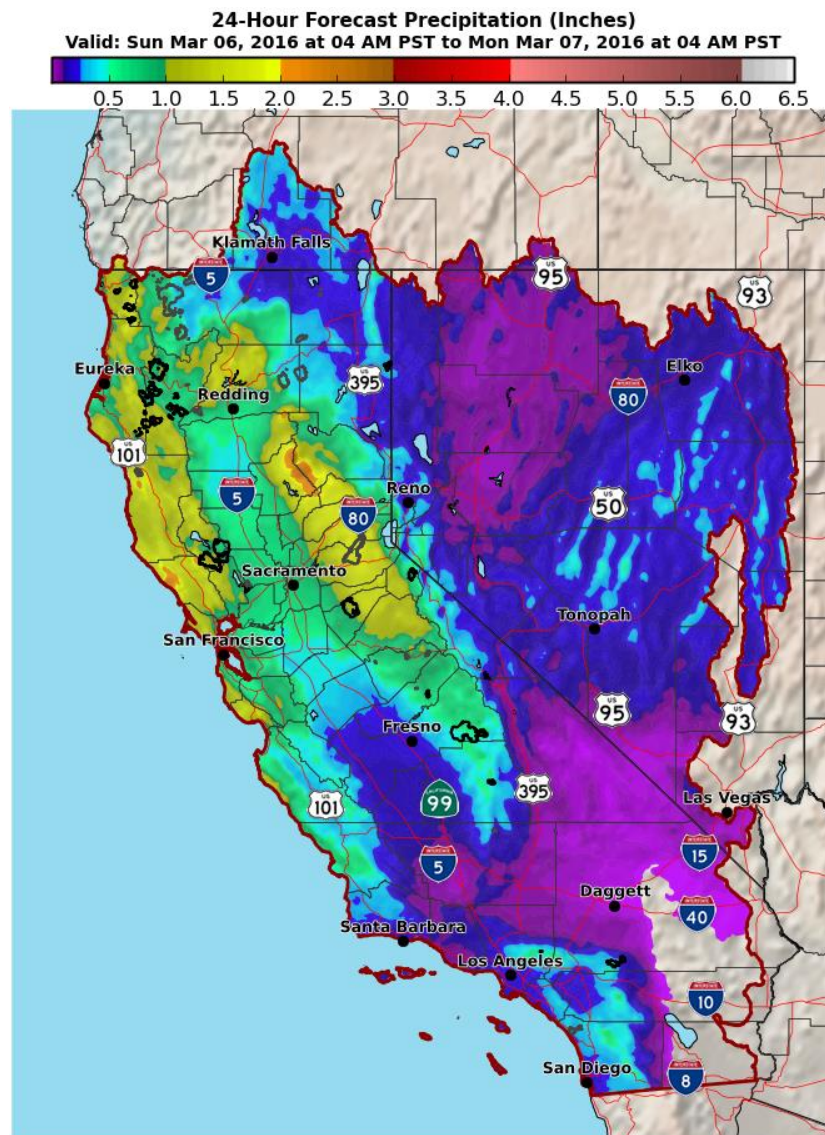

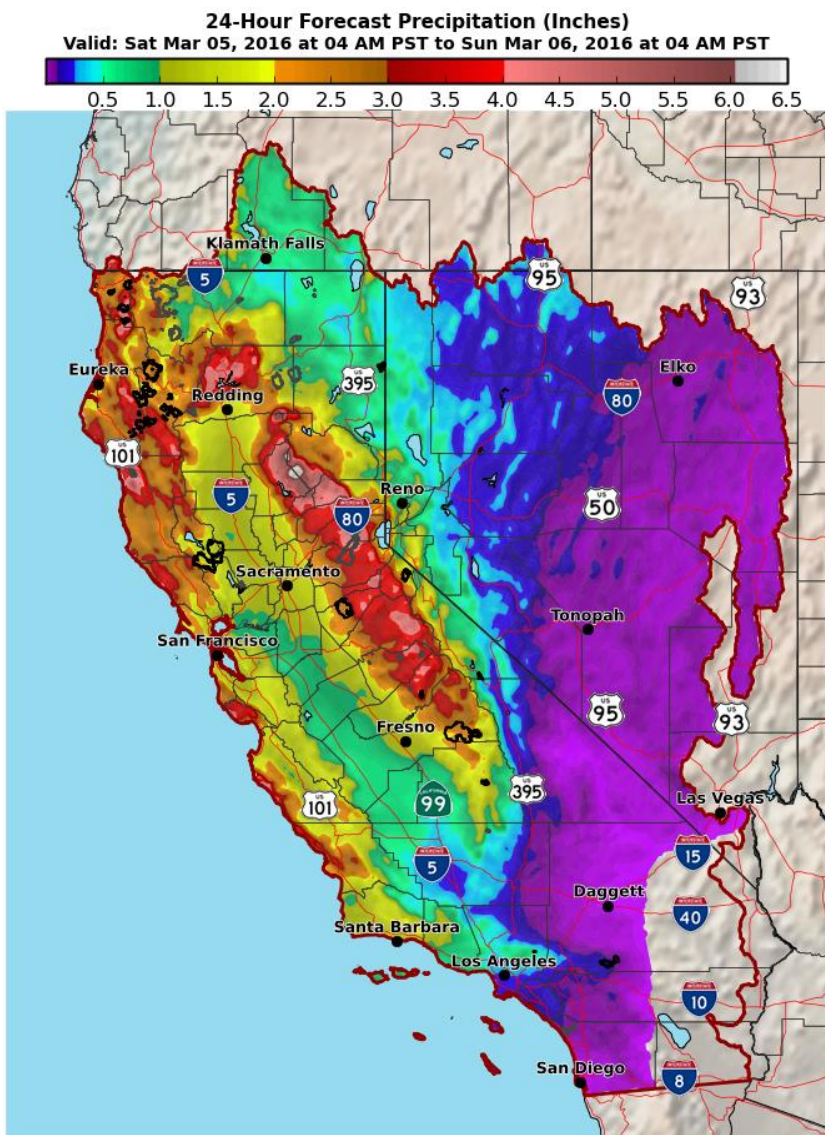

An approaching Pacific storm system will bring increasing clouds today with a slight chance of light precipitation this afternoon and evening mainly near the mountains. Strong gusty West winds will develop in the mountains and deserts tonight and continue through late Sunday night. The main period of precipitation is expected for late tonight into Sunday morning with decreasing showers near the mountains for Sunday afternoon and evening. A second colder Pacific storm system will move Southeastward through far Southern California on Monday bringing more cooling with showers and a chance of thunderstorms with showers decreasing from the Northwest Monday night. Dry with a warming trend for Tuesday through Thursday with gusty north winds near the mountains on Tuesday. Another Pacific storm system could bring more precipitation and strong gusty winds around next Friday.

Southeast California Weather:

Temperatures will gradually cool this weekend and bottom out Monday as two storm systems move through the Southwest. Significant rain or snow is not expected with these storms, but breezy to windy conditions will develop for most areas on Sunday. Warmer and drier weather will return for the rest of next week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 61 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 27 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

E/L0912 – Preparing Communities for a Complex Coordinated Attack IEMC: Community Specific

The IEMC: Preparing Communities for a Complex Coordinated Attack (CCA) sponsored by FEMA is a community-specific training initiative designed to improve the ability of local jurisdictions to prepare for, protect against, and respond to complex coordinated attacks. The purpose of this course is to provide a no-consequence environment where participants from multiple disciplines can discuss and analyze the local, state, regional and federal capabilities required to respond to an attack involving coordinated assaults against multiple targets. Through briefings, case studies, facilitated discussions, and planning workshops, participants work through a community-specific attack scenario to identify gaps in their current plans as well as mitigation strategies.

Who Should Attend

This course is for individual communities with populations of approximately 100K or greater. Participation from communities should include senior elected and appointed officials, senior agency officials, tactical level first responders, emergency managers, and other attendees who would have a role in the response to a complex coordinated attack. (EMI campus deliveries are limited to 75 participants).

Questions

If you have specific questions about the Complex Coordinated Attack IEMC program, please contact our Integrated Emergency Management Section staff at 301-447-1381 or via email at FEMA-EMI-IEMB@fema.dhs.gov.

Deadline: March 31, 2016
